

RECOMMENDATION LETTER

I , the Director of SOS technical high school and Center for excellence in electrical within Technical and Vocational schools association (TEVSA) have got an opportunity to work with Mr. RUUD VAN NEERVEN as International expert for GIZ based on our school.

Among the key roles and responsibilities he has, there is

- Support the center of excellence in its daily activities
- Organize and support training of trainers especially in practical field
- Workshops organization
- Suggest efficient use of consumable materials
- Identification and advocate for needed equipments,..
- Provide support to the remaining schools among the association

During his stay at our place, Mr. Ruud has provided a big support and was characterized with creativity and innovation way of doing things.

He has a good methodology on how to organize and work with different people and maintain a team work.

Tangible result were reached during his stay like:

- Four teachers have reached the level of master trainer and they can conduct easily the training of trainers to their follow teachers
- Well organized workshops are in place and a system of maintaining them
- Safety issues have been established
- A sub center of excellence has been created
- Modules for training have been developed
- Needed equipment have been purchased via his advocacy to different partners

I therefore, recommend him to any organisation that might need his service and expertise

Kiba MUVUNYI
Director SOS technical high school
